

THE NORDIC ALCOHOL  
RETAIL MONOPOLIES

# WATER AND HUMAN RIGHTS WEBINAR

**The Nordic Alcohol Monopolies invite You to a digital Water and Human Rights webinar on November 18th 2020.**

The Nordic Alcohol Monopolies have made a strategic decision to further engage in the impact water usage in the alcoholic beverage industry has on human rights in the production countries. We therefore like to initiate dialogue and find creative ways to work on these recognized challenges.

We warmly invite You to a collaborative webinar together with producers, Nordic suppliers, industry initiatives and other stakeholders involved in our common supply chain for alcoholic beverages. The day will include lectures and interactive workshops with focus on how the use of water potentially impacts human rights and practical examples of water efficiency. The event will be hosted by the Nordic Alcohol Monopolies.

After the day, we hope to have a joint vision of future sustainability efforts and how we can create real impact in our mutual supply chain.

The event will be held in English. The program will be sent in the end of October.

**Please register to the event latest by Wednesday November 11th.  
Register [here](#).**

Looking forward to seeing you online!

Sincerely,

The Nordic Alcohol Monopolies
